

Welcome!

The profit lies in the future. Our aim is to realise this profit together with you.

AT&C Accountants en Belastingadviseurs (AT&C accountants and tax consultants) is a new company, yet highly experienced, as we have spun off from the organisation of a branch of a Big Four consultancy firm. Our services have traditionally catered to business owners of small and medium-sized enterprises operating in the Netherlands and internationally, and the not-for-profit sector.

AT&C Accountants performs high-quality auditing and administrative activities, ranging from the full administration process to the preparation of annual accounts, liquidity forecasts and sub-assignments in the area of administrative services.

AT&C Accountants has obtained a licence from the Netherlands Authority for the Financial Markets (AFM) under the Act on the Supervision of Audit Firms (WTA) and is thus authorised to perform statutory audits.

AT&C Belastingadviseurs (AT&C tax consultants) provides tax services to business owners, not-for-profit organisations and high net worth individuals. Its services focus on providing proactive advice and dealing with tax issues in order to optimise the tax position. This advice may be nationally or internationally oriented. We can also prepare tax returns in various areas.

By combining this background and experience with a smaller organisation with direct lines, we are able to operate quickly and decisively on the market. We also have a large network that we can call on if necessary.

We will organise recurring activities in consultation with you to ensure they are carried out efficiently, also in terms of costs. We will approach more complex situations from a multidisciplinary perspective in mutual consultation, in order to quickly achieve the desired result.

This way, we are able to offer our clients top-class assistance through customised solutions.

Accountancy

One of the cornerstones of our organisation is the production, clarification and auditing of annual accounts and the statements derived from those accounts.

We offer you the following services:

- preparation of your annual accounts and, if necessary, of the financial statements to be filed with the Chamber of Commerce;
- performance of statutory audits;
- evaluation and/or (voluntary) auditing of your annual accounts;
- simple as well as comprehensive interim reports;
- proactive sharing of ideas and advice on administrative IT processes and package selections;
- sharing ideas and advice on organising your financial administration;
- processing of your administration and providing various statements;
- preparation and filing of your turnover tax returns;
- analysis of the administration kept by you and tips on how to make this easier.
- drawing your attention to developments/unclear issues detected in the administration;
- discussion of tax bottlenecks in your financial administration.

History

On 1 June 2007, AT&C became independent through the management buyout of a branch of a Big Four consultancy firm. The majority of staff had been working here for several years prior to the spin-off.

Since the spin-off, we have achieved 30% growth in turnover and staff.

Our Vision

“The profit lies in the future”.

The advice and assistance we offer our clients is tailored accordingly. Not only does this require a good record of the past but also, most importantly, a sharp, analytical outlook going forward. Only then can we achieve added value for our clients.

This is the concept that underlies the services we provide to our clients. On our part, it requires a team of experienced, high-quality professionals. Our very experienced team, which includes five accountants and three tax lawyers, guarantees this. We continue to focus on maintaining and, where possible, improving the quality of our team. An ongoing process in this respect is the training of younger colleagues. Quality is our vision.

Obviously, future-driven advice not only requires quality – another essential feature is a proactive attitude. Our proactive attitude, in combination with input on the current developments in the company and the objectives of the entrepreneur, creates an ideal mix. It gives us the best possible basis to act as a sparring partner for the business owner.

Together with the business owner, we can realise the profit that lies in the future. If we accomplish this goal, our mission will be achieved.

Professional associations and licences

AT&C Accountants is a member of the SRA (Netherlands Association of Chartered Accountants and Accounting Consultants). AT&C Accountants has obtained a licence from the Netherlands Authority for the Financial Markets (AFM) under the Act on the Supervision of Audit Firms (WTA), and is thus authorised to perform statutory audits.

All the accountants are members of the NOvAA (Netherlands Association of Accounting Consultants).

The tax advisers are members of the NOB (Dutch Association of Tax Advisers). The NOB is a professional body for tax advisers with a university education. Those who complete post-graduate training at the NOB can join as members.
